## McPherson County, Kansas Cemeteries

There are a little over 50 cemeteries in the county. The following list contains the cemeteries, township and number of burials for which I have records. I do not yet have an on line searchable database for the 25,000+ names in my records. However, all of the cemeteries have a link to view the records. You can [email me](#) with specific requests for a particular person, family or cemetery and I will look to see what I have. Be sure to include details such as dates, spouse, other relatives, etc. Details make scanning for others in family plots much easier. The more information I have the more I can provide. Please, even if you locate the person you are looking for, let me check my other sources for additional information.
