

FOR IMMEDIATE RELEASE:

From: Shalei Shea, RN BSN
McPherson County Health Department Director and McPherson County Health Officer

February 9, 2021

CORONAVIRUS DISEASE (COVID-19) IN MCPHERSON COUNTY

After carefully considering local hospital capacity, new case rates and provider feedback, MCHD recommends McPherson County transition to Phase 3 reopening plans beginning February 10, 2021. Phase 3 limits gatherings to 45 individuals when 6-foot distance is not maintained. More information on Phase 3 plans can be found on the McPherson County website, mcpersoncountyks.us.

COVID-19 Vaccine distribution will require the community to remain flexible. Locals do not have control over how many doses KDHE sends. Phase 2 of the Kansas Vaccination Plan includes specific entities and those 65+ years old. At this time, McPherson County Health Department will be prioritizing Phase 2 entities based on known risk and health factors. MCHD will reach out to the named entities as previous groups are vaccinated and doses become available. MCHD is not scheduling for later phases at this time, but you may email machd@mcpersoncountyks.us with your contact information for future reference. While federal supply prevents KDHE from supplying providers with vaccine, MCHD will be dividing our current shipments amongst county providers to help vaccinate the 65+ population. As of this release, McPherson County is still working to vaccinate the 65+ population and Group A.

- Individuals 65+ years old should contact their primary care provider to be vaccinated. If you do not have a primary care provider, please call MCHD at 620-241-1753.
- Healthcare associated workers from Phase 1 will be able to receive vaccine in Phase 2 if they weren't vaccinated in Phase 1 shipments.
- Group A: K-12 staff, childcare providers, and disability service staff.
- Group B: Homeless shelters, higher education staff, USPS, and public transportation.
- Group C: Food processing, agriculture, DMV, and public city and county offices.

If you have questions about whether you should receive the vaccine or not, please discuss your concerns with your primary care provider. Vaccine supply comes in very small shipments so continued patience is appreciated. More information like dose counts can be found at <https://www.kansasvaccine.gov/>.

KDHE and MCHD continue to mandate a 10-day quarantine for Kansans if you have done any of the following:

- Attended/traveled to a mass gathering event out-of-state of 500 people or greater where individuals did not 6-foot distance and wear masks
- Traveled on a cruise ship or river cruise

COVID-19 data in McPherson County can now be found on the second page of this release.
