

FOR IMMEDIATE RELEASE:

From: Shalei Shea, RN BSN
McPherson County Health Department Director and McPherson County Health Officer

March 18, 2021

CORONAVIRUS DISEASE (COVID-19) IN MCPHERSON COUNTY

As of this release, McPherson County is still vaccinating Phase 2. Individuals in these categories can contact their primary care provider to be vaccinated or call MCHD to schedule at 620-241-1753.

- Individuals 65+ years old, healthcare associated workers, K-12 staff, childcare providers, disability service staff, homeless shelters, higher education staff, USPS, public transportation, food processing, agriculture, DMV, public city and county offices, water/wastewater workers, and retail/restaurant/grocery workers.

Beginning Monday, March 22, 2021, McPherson County will also begin to vaccinate Phase 3 and 4 groups. **Please do not call prior to Monday to schedule as we are still working in Phase 2 until then.** Providers in the county that have received vaccine from MCHD will continue to do so and also move to the next phase. Individuals should contact their healthcare provider or MCHD to schedule, 620-241-1753. Employers may email machd@mcpcoks.us to discuss vaccinating their business. Phase 3 and 4 groups include:

- Individuals aged 16-64 (16-17 year old's can only receive Pfizer vaccine) with the following medical risks: cancer, chronic kidney disease, chronic obstructive pulmonary disease, down syndrome, heart conditions, organ transplant recipients, diabetes mellitus, sickle cell disease, pregnant patients (should discuss with provider), asthma, cerebrovascular disease, immunocompromised state, neurologic conditions, liver disease, pulmonary fibrosis, thalassemia, and obesity.
- Critical manufacturing workers that perform indoors
- Utility workers
- Social service and government workers
- Logistics workers, such as truck transportation and couriers
- Shelter, housing and construction workers
- Finance workers
- Information technology and communications workers

Isolation and Quarantine:

- If you are exposed to someone with suspect or confirmed COVID-19, you are not required to quarantine if you meet ALL of the following points:
 - If you have been fully vaccinated with the COVID-19 vaccine for at least 2 weeks (2 weeks after the second dose in 2-dose series like Moderna and Pfizer, or 2 weeks after the first dose in a single-dose vaccine like Johnson & Johnson)
 - If you are within 6 months of receiving your last dose in the vaccine series
 - If you are not having any symptoms since the identified COVID-19 exposure
- If you do not meet ALL of the above points, you should follow normal quarantine guidance, which includes a 10-day quarantine from date of exposure.
- If you meet ALL of the above points but then become symptomatic, you should immediately isolate and seek PCR or antigen COVID-19 testing.
- Vaccinated inpatients and residents in healthcare settings/long term care facilities are exempt from this fully vaccinated exemption due to unknown vaccine effectiveness in this population, the higher risk of severe disease and death, and challenges with distancing in these settings.

McPherson County Health Department (MCHD) recommends McPherson County practice Phase 3 Reopening Plans beginning February 10, 2021 and will be received March 23, 2021. Phase 3 limits gatherings to 45 individuals when 6-foot

McPherson County Health Department
1001 N. Main St.
McPherson, KS 67460
(620)241-1753
Fax (620)241-1756

distance is not maintained. More information on Phase 3 plans can be found on the McPherson County website, mcpersoncountyks.us.

KDHE and MCHD continue to mandate a 10-day quarantine for Kansans if you have done any of the following:

- Traveled on or after March 12 to New Jersey or New York
- Traveled on or after March 12 to State of Palestine or Estonia.
- Traveled on or after February 26 to the countries of Mayotte, Czechia, San Marino, Montenegro, or Seychelles.
- Attended/traveled to a mass gathering event out-of-state of 500 people or greater where individuals did not 6-foot distance and wear masks.
- Traveled on a cruise ship or river cruise.

COVID-19 data in McPherson County can be found on the next page of this release.
