Pro-Solar Farms

Against Solar Farms

Both

Willingness to discuss:

Pro-Solar Farms

Against Solar Farms

The goal of this study committee is to present to the county commissioners by August 31, 2021 a list of advantages and disadvantages of allowing solar farms in McPherson County.

The advantages (and disadvantages) must be listed in rank order with a weight from 1 to 10 of the importance of that advantage (disadvantage). The weight ranges are from 5 to 10 with 10 being the most important factor(s) to consider by the commissioners.
